

# Volunteer Program

## Permaculture & Community

### *About Soraya Foundation*

Soraya Foundation is a NGO focusing on social and environmental projects on Gili Air. By creating a place for education, development and guidance, we wish to inspire children and adults in learning, improving their skills and working together. Soraya Foundation is located on Gili Air, a small eco-friendly island with no motorized vehicles, and where the only way to get around is with the local horse-carts, by bicycle or by foot. Our little paradise consists of white sand beaches, palm trees, crystal clear water and a joyful local community. Our mission as a foundation is to provide education for the future generations and the local community of Gili Air. We wish to inspire and ignite the spirit of the community through sharing and learning.

## BE A VOLUNTEER

### *Content creating*

Assist Soraya Foundation's team in writing articles and stories for our webpage and magazines. Inform about our latest projects and share blogposts regarding our community projects.

Assist in taking professional photos during our teachings and workshops. Create photographic and video content for our webpages and social media.

### *Teaching*

Volunteer as a teacher to assist in our weekly English classes at the local elementary school. Help establish music classes and assist in our weekly swim lessons for local women on Gili Air.

Assist in making lesson plans, create games and learning methods, communicate and collaborate with teachers, and help arrange outside school activities like sports and art.

### *Permaculture*

Assist in setting up permaculture gardens at the local elementary school and around the island. Supervise in trash separation and management and help teach the kids about sustainability.

Help creating sustainability workshops and lessons for the kids and local community to help us on the journey towards making Gili Air a zero-waste island.

# Volunteer Program
